Raise a forest with your glass

Tread Softly is a range of moderate alcohol, modern wines that are lighter on the environment and on your palate.

“Not only are the wines naturally lower in alcohol, the wines are also crafted with minimal impact to the environment through expert vineyard and water management. In addition, for every dozen bottles of Tread Softly sold, we will plant an Australian Native Tree in a regeneration program in the Yarra Yarra biodiversity corridor in WA. This is a powerful program seeking to give back to the environment that we can often too readily take away from. As of January, we have planted 182,207 native trees and shrubs.”

A SAMPLE OF OUR REVIEWS

(Previously Bomaderry Super Cellars 2015-2024)

James– Melross Farm (November, 2019)

Great service & excellent price. Jeff sorted out the alcohol for our wedding. From the get go he was so good, always getting back to us quickly, beat the big retailers price (on first quote), sourced wines he didn't stock and delivered on time and with no stress! Couldn't recommend more.

Khrissa Donell (December 2022)

Jeff was amazing — friendly, professional and very responsive. Bomaderry Super Cellars were very affordable and made the entire process very easy — considering I have no idea about wines, and my husband knows a little bit. Jeff was able to give us some recommendations on what to select which made the whole process so much easier!

Michael Bock (May 2023)

We used Bomaderry Super Cellars for our wedding and couldn't be happier — they had a broad range of drinks packages available and were very helpful with providing advice on which types of drinks (and quantities) would be most appropriate for our guestlist. They also offer a buy-back system for unopened cartons/boxes after the event (which returned us almost \$1000). Staff are friendly and very helpful.
